DMH | Entrepreneurial Edge

The difference between starting a business and actually having a successful business.

“With our program you will be up and running in your business with an established brand, business and marketing plan, website, and the proper information for *your specific business*. This is not a general how to start a business or market your business 101 program. Don't take my word for it, look up the businesses that have taken the program on our website and get their perspective on it.”

– Denise Herbert, President of DMH PR Inc.

“Participating in this dynamic workshop gave me the knowledge and resources I needed to build my business the right way the first time around. Since the program, it's been full steam ahead for me.”

– Paula Drew, Conscious Cuisine
